### SPONGEBOB PACKS LUNCH ON SINGAPORE AIRLINES

From December 2006, Singapore Airlines junior flyers can enjoy their special meal onboard and bring it home too. Children's meals will be served in lunchboxes decorated with the popular cartoon character, SpongeBob SquarePants.

Available on all flights from Singapore (with the exception of the Singapore-Kuala Lumpur service), the meal box will contain favourites such as spaghetti and chicken meatballs, snacks such as Oreo cookies and Ribena drink. Our junior travellers can take their lunch-boxes home with them at the end of the flight.

To complete the junior inflight experience, Singapore Airlines will also be giving out the well-loved Nickelodeon toys and activity kits from the *Barnyard* movie and the *Rugrats* animation series.

Children of all ages can also stay entertained by the wide range of popular children's television programmes, cartoons and the latest movies including *Barnyard*, *the Original Party Animals*, and *Rugrats in Paris*, on dedicated Young Ones channel on Singapore Airline's KrisWorld Inflight Entertainment System.

Singapore Company Registration Number: 197200078R

They can also listen to the latest children's CDs or sound tracks such as *High School Musical* and *The Final Countdown by Crazy Frog* or explore one of the largest game menus in the sky that includes popular titles such as *Super Mario Bros Deluxe®* as well as Disney's *Winnie the Pooh®*. In addition, there are multi-player PC games such as *Tik Rack Toe* and *Inflight Tetris* that allow children to pit their skills against each other from wherever they are seated.

Older children can also try learning a few foreign phrases before they arrive at their destinations with KrisWorld's every popular interactive language learning programme Berlitz® Word Traveler that features 22 languages.
