GROUP FINANCIAL PERFORMANCE

First Quarter 2009-10

The combination of the global economic downturn, the outbreak of Influenza A (H1N1) and fuel hedging resulted in a loss of \$307 million for the first quarter ended June 2009. This is the first quarterly loss since the SARS crisis in 2003.

Group revenue fell 30% from April – June 2008, down by \$1,260 million, as carriage and both passenger and cargo yields declined, the former reflecting increased competition and promotional fare activities.

Group expenditure at \$3,191 million was \$598 million (-15.8%) lower than the same quarter in the preceding financial year. The drop in the price of jet fuel provided relief of \$1,140 million, partially offset by fuel hedging losses of \$287 million (compared to hedging gains of \$349 million last year).

The Group recorded an operating loss of \$319 million for the first quarter, against an operating profit of \$343 million last year.

The operating results of the main companies in the Group are as follows:

• Singapore Airlines	Loss of	\$ 271 million	(profit of \$265 million previously)
• SATS Group	Profit of	\$ 44 million	(+14.4%)
• SIA Engineering	Profit of	\$ 12 million	(-25.0%)
• SilkAir	Loss of	\$ 3 million	(profit of \$10 million previously)
• SIA Cargo	Loss of	\$ 104 million	(profit of \$5 million previously)

BALANCE SHEET REVIEW

Equity attributable to equity holders decreased by \$27.1 million from \$13,930.6 million as at 31 March 2009 to \$13,903.5 million as at 30 June 2009 arising from a first quarter loss and partially offset by an improvement in fair value reserve of \$279.8 million. The improvement in fair value reserve was mainly due to lower fair value losses incurred on outstanding fuel hedging contracts following a rise in jet fuel prices, partially offset by a decrease in fair value gains on outstanding foreign exchange currency hedging contracts.

Total Group assets decreased by \$440.8 million or 1.8% to \$24,377.7 million as at 30 June 2009. The decrease resulted mainly from a drop in trade debtors balance by \$231.5 million in tandem with the decline in revenue and the revaluation of foreign exchange currency hedging contracts. Property, plant and equipment also decreased by \$85.2 million arising mainly from depreciation of \$422.2 million, offset by net acquisitions of \$338.0 million.

Total Group liabilities decreased by \$425.7 million or 4.1% to \$9,902.4 million as at 30 June 2009 mainly from a decrease in trade and other creditors of \$486.2 million, attributable to lower fair value losses on outstanding fuel hedges.

STEPS TO REDUCE COST

Several steps have been taken by the Company to contain costs, including a freeze on hiring, unpaid leave, wage cuts and deferment of non-essential projects.

Consequent to the first quarter results, the monthly variable component of employees' salaries will be cut in accordance with the Collective Agreements signed with the respective unions.

Together, these measures to trim staff costs will provide estimated savings of \$60 million for the current financial year.

In addition, the Company is continuing its efforts to eliminate wastage and duplication and to negotiate with vendors to reduce rates.

OUTLOOK

The price of jet fuel is at less than half what it peaked at last year, but remains volatile. However, losses from hedges, which were contracted when fuel prices were at historical highs, are expected but will taper off over the course of the financial year as these hedges are settled.

Air cargo carriage has stabilized in the last few months, and industry indicators have shown some improvement. Still, the outlook for air cargo remains challenging, with yields expected to remain under pressure from excess capacity in the market.

The Group's first quarter performance reflected the adverse business conditions for airlines. If these conditions continue, the Group expects to make a loss for the full year. Revenues from the airline operations exceeded cash expenditure, although not enough to cover depreciation charges. Net operating cash flow is expected to remain positive for the rest of the financial year. The Group's cash balance remains strong and the Company does not foresee any necessity to raise capital.
