During the period April-December 2011, the Company and SIA Cargo accepted a settlement offer from the plaintiffs in the Canadian air cargo class actions to resolve all such actions on an agreed basis for an amount of CAD1.05 million (\$1.3 million). This has been reflected as an exceptional item in the Group's accounts. The settlement is without admission of any wrongdoing or liability and is subject to court approval.

During the period April-December 2010, the exceptional items comprised fines paid by SIA Cargo as imposed by the European Commission (\$135.7 million), the South Korean Fair Trade Commission (\$3.6 million) and the United States Department of Justice Antitrust Division (\$62.5 million).

SIA Cargo has filed appeals against the decisions made by the European Commission and the South Korean Fair Trade Commission. In the appeals, SIA Cargo contests any suggestion that it was involved in a global conspiracy to fix surcharges.

SIA Cargo accepted the plea offer made by the United States Department of Justice. The plea agreement brought the Department of Justice's air cargo investigations in the United States to a close for SIA Cargo.

GROUP FINANCIAL PERFORMANCE

Third Quarter 2011-12

The persistently high jet fuel prices had adversely affected the Group's performance. In the third quarter of the 2011-12 financial year, the Group turned in a net profit of \$135 million, a drop of \$153 million or 53% over the same quarter in the preceding year.

Group revenue improved \$34 million (+1%) to \$3,875 million on the back of marginal growth in passenger carriage, while Group expenditure rose at a faster pace, increasing \$386 million (+12%) to \$3,718 million, led by higher fuel costs.

Expenditure on fuel grew by \$375 million (+33%), as jet fuel prices increased 30% over the same period last year. Fuel accounted for 40% of Group expenditure, up 7 percentage points year-on-year.

Consequently, Group operating profit declined to \$157 million, \$352 million lower (-69%) than the year before.

The operating results of the main companies in the Group for the third quarter of the financial year are as follows:

- Parent Airline Company Operating profit of \$137 million (\$378 million profit in 2010)
- SIA Engineering Operating profit of \$28 million (\$34 million profit in 2010)
- SilkAir Operating profit of \$32 million (\$45 million profit in 2010)
- SIA Cargo Operating loss of \$40 million (\$48 million profit in 2010)

The operating profit of the Parent Airline Company fell \$241 million (-64%) as higher fuel expenditure (+\$316 million or 34%) weighed on its performance. Ongoing initiatives in cost management and efficiency helped to keep other cost items in check, with passenger unit cost excluding fuel down by 9%.

April to December 2011

For the nine months to December 2011, the Group posted a net profit of \$374 million, a decline of \$547 million (-59%) from the \$921 million for the corresponding period in the previous year.

Group revenue was up \$215 million (+2%) to \$11,152 million, while Group expenditure increased \$1,029 million (+10%) to \$10,861 million, principally on account of higher jet fuel prices.

Consequently, operating profit for the Group fell \$814 million (-74%) to \$291 million.

BALANCE SHEET REVIEW **(December 2011 vs March 2011)**

Equity attributable to owners of the parent decreased by \$1,258 million or 9% to \$12,946 million as at 31 December 2011 due mainly to the payment of final and special dividends in respect of FY2010-11 (-\$1,439 million) and payment of interim dividends in respect of FY2011-12 (-\$118 million) from the general reserve, partially offset by April to December 2011 profits (+\$374 million).

Total Group assets decreased by \$2,777 million (-11%) to \$21,768 million primarily due to the decrease in cash and bank balances by \$2,874 million, arising mainly from the dividend payments and repayment of the \$900 million fixed rate note in December 2011. Property, plant and equipment decreased \$589 million due mainly to sale of aircraft during the year. This was partially offset by increase in investments of \$364 million from placement of money market funds and increase in long-term investments of \$294 million on investments in money market funds, liquid investment grade corporate bonds, credit-linked notes and a 16% equity interest in China Cargo Airlines Ltd.

Total Group liabilities decreased \$1,500 million or 15% to \$8,541 million as at 31 December 2011. This was mainly on account of repayment of the fixed rate note in December 2011 (-\$900 million), lower current tax payable (-\$239 million), sales in advance of carriage (-\$138 million) and deferred taxation (-\$106 million).

9 Whether a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

OUTLOOK

Forward bookings continue to show signs of weakness in the final quarter of the financial year, due to uncertainty in the global economy and the protracted Eurozone debt crisis. Similarly, the air cargo market remains weak as forward indicators such as Purchasing Manager Indices slide further alongside weak consumer demand in major developed economies. Passenger yields are expected to remain under pressure while cargo yields are expected to continue to decline.

As the price of jet fuel remains high and volatile, fuel costs continue to adversely impact the Group's financial performance.

Amidst these challenges, the Group will continue to proactively seek out revenue opportunities and exercise flexibility in aligning capacity deployment to market demand. Vigilance in cost management will be maintained.
