# Group Financial Results

## Key Highlights

**Record Revenue, an increase of \$924 million, 19.3% higher year-on-year, on strong demand and a 12% increase in passenger yields**

**Q1 FY26/27 operating profit fell \$299 million to \$106 million, 73.8% lower year-on-year, driven by the sharp jump of \$991 million in net fuel costs due to the Middle East conflict, outweighing record revenue**

**Q1 FY26/27 net results declined by \$262 million to a loss of \$76 million due to lower operating profit and the share of losses from Air India**

**A robust balance sheet, anchored by cash reserves of \$10.48 billion, supports the Group’s operational agility to seize opportunities and sustain long-term investments**
