\*Due to regulatory requirements, transfers to destinations in Mainland China are currently not allowed.

\*\*Singapore Airlines will stop carrying transit passengers departing from Singapore to Hong Kong due to regulatory requirements. Services from Hong Kong to Singapore remain unaffected, and passengers originating from Hong Kong will be allowed to transfer through Singapore Changi Airport en-route to their final destinations.

\*\*\*Do note that your first point of departure must be from one of the cities approved for transit flights through Singapore as listed above. Alternatively, your first point of departure may be from countries listed [here](#), if you are connecting to a city approved for transit flights before transiting through Singapore to your final destination.

\*\*\*\*Singapore has unilaterally lifted border restrictions with Australia; Brunei; China; New Zealand; and Taiwan, China. Do note that passengers transiting through one of these unilaterally opened (UO) countries/regions to connect to a flight to Singapore to reach their final destination, must ensure that they do not originate from or transited through a non-UO country/region prior to entering these UO countries/regions. For example, Fiji – Auckland – Singapore – London is not allowed.

*Information is updated as of 2 May 2021*
