<sup>1</sup>Singapore Airlines will stop carrying transit passengers departing from Singapore to Hong Kong due to regulatory requirements. Services from Hong Kong to Singapore remain unaffected, and passengers originating from Hong Kong will be allowed to transfer through Singapore Changi Airport en-route to their final destinations.

<sup>2</sup>Passengers can board the Scoot-operated flight if they:

- Are a resident of Macao SAR (China), or are a foreign national holding an exemption approval from the Macao authorities; AND
- Have remained in countries/regions in Australia, Brunei, Europe, New Zealand, North Asia, Singapore, Turkey, United Kingdom, the United States and Vietnam in the last 21 days.

<sup>3</sup>Due to regulatory requirements, transfers to destinations in Mainland China are currently not allowed.

<sup>4</sup>Do note that your first point of departure must be from one of the cities approved for transit flights through Singapore as listed above. Alternatively, your first point of departure may be from countries listed [here](#), if you are connecting to a city approved for transit flights before transiting through Singapore to your final destination.

*Information is updated as of 25 October 2021*
