

Pre-departure Covid-19 PCR test locations

Updated 11 November 2020, 1730 hrs (GMT+8)

Many countries and regions require you to take a Covid 19 Pre-Departure Test (PDT) and present a valid negative test result before you are allowed to transit through or enter. Countries that require a PDT usually only accept a Polymerase Chain Reaction (PCR) test. Antigen and antibodies tests may not be accepted unless otherwise specified. So please ensure you check the test requirements carefully.

The test certificate must be issued by a clinic, hospital, or testing centre recognised by the authorities. Please ensure that you have allocated sufficient time to undergo the test and receive your results in order to meet the requirements of your transiting airport or travel destination.

As entry requirements may change at short notice, always check the [latest travel advisories](#) for your destination.

Clinics in Singapore

If you need a PDT to fly out of Singapore, you must make an appointment at a [recognised clinic](#).

If you are taking the test before 1 December 2020, you may have to [apply for approval from relevant local authorities](#) to make an appointment for your pre-departure Covid-19 PCR test. If you are taking the test after 1 December 2020, no prior approval is necessary.

Air Travel Bubble passengers returning to Hong Kong need not apply for approval for the test, and may use their Air Travel Pass and air ticket to secure a test appointment.

Clinics, hospitals, and testing centres around the world

Find a recognised clinic, hospital, or testing centre near you. If your departing country or region is not listed below, please check with your local health authorities. Do note that the cost of the PDT may differ, depending on the test location and medical provider.

You may be required to present a negative PCR test result to enter Singapore

With effect from 18 November 2020, all travellers (Long-Term Pass holders / Short-term visitors) entering Singapore will need to take a pre-departure Covid-19 PCR test within 72 hours before their flight.

Singapore Citizens, Singapore Permanent Residents and Pre-Approved Business Pass holders, issued by the Ministry of Trade and Industry (MTI), are not required to take the pre-departure Covid-19 PCR test. Travellers who have been in the following places for the past 14 days are also exempted: Australia; Brunei; China; Hong Kong SAR, China (on non-Air Travel Bubble flights); Macao; Malaysia (excluding Sabah); New Zealand; Taiwan, China; and Vietnam.
